Javier Layne

Computer Science Student & STEM Curriculum Developer

Prince George, VA | Virginia State University | Available for internships and part-time software / education roles

---

Education

Virginia State University — B.S. in Computer Science

Junior standing · Expected graduation 2027

Experience

Curriculum Developer — Summer of Discovery (STEM Enrichment Program)

Designs lesson plans and presentations for students ages 6–16

- Building a 10-week curriculum deck with age-differentiated tracks for Junior Explorers (6–10) and Senior Innovators (11–16)
- Developed a drawbridge engineering lesson plan spanning the full 6–16 age range
- Created a Blender-for-3D-printing presentation for ages 5–10
- Authored a Rubik's Cube lesson plan for K–5 students

Warehouse Associate — Food Lion Distribution Center

January 2024 – Present · Part-time

Projects

- **Grocery Organizer** (Python) — categorizes and tracks grocery lists
- **Calculator** (Python / C++) — standard arithmetic calculator
- **2D Platformer Prototype** (C++) — early game-mechanics prototype
- **Text-Based Adventure Game** — branching narrative game logic
- **Resume-Analysis Concept Tool** — concept tool for reviewing resumes

Coursework

- **MATH 261** — Calculus (sequences, series, integration techniques)
- **ENG 342** — Technical Writing; authored an MLA white paper on junior-developer mentorship programs

Skills & Interests

Python, C++, curriculum design, presentation design, AI & automation, software development
